In a delightful lecture Tuesday evening, Miss Sumayah Attaveh contrasted the American and Turkish people in many ways most interesting and instructive, showing the same distinctive ability in dealing with governmental and political questions that she did with the simpler and more familiar questions of the country. Miss Attaveh is the youngest lecturer in America, but addresses her audience with an ease and agility, combined with strength and character, which places her among the best. She first came to America to study medicine, planning to return to Turkey to administer to the Mohammedan women. A short time later, both father and mother died, the family fortune disappearing through political intrigue, but with unusual courage and energy, Miss Attaveh has overcome any obstacle she might meet until she has already proved herself a success, holding before her a grand and useful career.

Secure Ajax Tires Now and Save Money

We have contracted for many more thousands of dollars' worth of tires in 1916 than any previous years, and our sales have been greater this year than ever before.

We have not sold, however, in 1916, all that we have contracted for. We are short on our contract about two thousand dollars (\$2,000.00). Now, in order to secure our rebate from the factory, we will offer nearly two thousand dollars' worth of new, fresh goods that have just arrived at 15 per cent. from list price for the balance of the year only. After January 1, list prices will be resumed.

Tire Prices Will Advance Soon

Owing to a 50 per cent. increase in fabric and advanced schedule of rates of labor, so that the present prices will not continue for any great length of time.

NOTE.—We will sell for immediate delivery only these \$2,000.00 worth of tires at this reduction, so that we may get our yearly rebate. After this sale, remember, list prices only.

We have handled Ajax Tires for more than six years consecutively and each tire sold carries with it the company's guarantee of 5,000 miles, together with our recommendation.

We have just completed arrangements with the Ajax factory for their representative in Barre for 1917.
